

NORD-Seminar | Northern Oncology Research & Development Seminar SS 2023

Date	Title	Speaker	Hosting Site
04.04.	Single-cell & non-coding mutations	Malte Spielmann, Institute of Human Genetics, UKSH, Campus Lübeck	UCCSH, Campus Lübeck
11.04.	MRI radiomics-based identification of imaging biomarkers for malignant transformation and growth prediction of plexiform neurofibromas in NF1	Inka Ristow, Department of Diagnostic and Interventional Radiology & René Werner, Institute for Computational Neuroscience, UKE	UCCH
18.04.	Malignant melanoma - A model tumor and race for a cure	Katharina Kähler, Department of Dermatology, UKSH, Campus Kiel	UCCSH, Campus Kiel
25.04.	Personalized therapy approach for leukemia	Cyrus Khandanpour, Department of Hematology and Oncology, UKSH, Campus Lübeck	UCCSH, Campus Lübeck
02.05.	Early detection of premalignant lesions and malignant tumors in asymptomatic individuals by the use of Epitope Detection in Monocytes (EDIM) and radiological imaging	Ralf Smeets, Department of Oral and Maxillofacial Surgery, UKE	UCCH
09.05.	Intracellular TRAIL receptors - Unexpected regulators of cancer malignancy	Anna Trauzold, Institute for Experimental Cancer Research, UKSH, Campus Kiel	UCCSH, Campus Kiel
16.05.	Potential of individualized and cell-based medical engineering for oncological applications	Matthias Brandenburger, Fraunhofer Research Institution for Individualized and Cell-Based Medical Engineering IMTE, Lübeck	UCCSH, Campus Lübeck

Das NORD-Seminar wird in Kooperation mit dem UCCSH am UKSH durchgeführt

23.05.	Liquid biopsy and the 3D tumoroid technology - Approaches for individualizing diagnostic and treatment options in pancreatic ductal adenocarcinoma	Christine Nitschke , Department of General, Visceral and Thoracic Surgery / Mildred-Scheel Cancer Career Center Hamburg, UKE	UCCH
30.05.	Ribonucleotide excision repair in the intestinal epithelium	Konrad Aden , Institute of Clinical Molecular Biology / I. Medical Department, CAU & UKSH, Campus Kiel	UCCSH, Campus Kiel
06.06.	Cardiac tumors - An overview of a rare disease	Stephan Ensminger , Department of Cardiac and Thoracic Vascular Surgery, UKSH, Campus Lübeck	UCCSH, Campus Lübeck
13.06.	Molecular phenotypes of medulloblastoma	Julia Neumann , ZMNH / Department of Neuropathology, UKE	UCCH
20.06.	Patient-reported outcomes in radiation oncology	Alexander Fabian , Department of Radiotherapy, UKSH, Campus Kiel	UCCSH, Campus Kiel
27.06.	C5aR2 regulates NKp46 levels in NK cells and influences the formation of pulmonary metastases	Caroline Gruner , Section for Translational Surgical Oncology and Biobanking, Department of Surgery, UKSH, Campus Lübeck	UCCSH, Campus Lübeck
04.07.	Radiobiology of medulloblastoma - From preclinical testing to clinical trials	Nina Struve , Laboratory for Radiobiology and Exp. Radio-oncology / Mildred-Scheel Cancer Career Center HH & Martin Mynarek , Department of Pediatric Hematology and Oncology / Mildred-Scheel Cancer Career Center HH, UKE	UCCH
11.07.	Nanoparticles for targeted delivery of active pharmaceutical ingredients	Regina Scherließ , Department of Pharmaceutics and Biopharmaceutics, CAU	UCCSH, Campus Kiel

Das NORD-Seminar wird in Kooperation mit dem UCCSH am UKSH durchgeführt
